

Heart +

Heart + may improve heart health & circulation and supports normal function alongside antioxidant activity.

Designed to increase natural circulation of the heart, improving blood flow to and from this vital organ to support cellular health throughout the cardiovascular system.

Contains key vitamins & minerals that play a fundamental role in the repair of the body's nerves and cells as well as cleansing the system of harmful toxins, including the elusive Vitamin D3, Zinc & Magnesium that can be difficult to obtain through the diet.

Unlike rival products containing singular ingredients that you have to buy separately, Heart + combines them all into one powerful, all-encompassing formula that includes the likes of C3 Curcumin Extract[®], Benolea EFLA943[®], Bioperine[®], Hawthorn Berry Extract, Guggul Lipid & Kaneka Ubiquinol[®] COQ10 amongst others.
